DATA SHEET

MASTERTUBE injection Hose | YELLOW

perforated PVC injection hose.

Article number: 030400

Perforated PVC plastic hose

colour yellow

Dim. 6/12 mm

1 reel of 100 m

Fixation marks at 15-cm intervals for faster and easier installation

High demands are placed on the technology used to seal concrete construction joints. MASTERTUBE YELLOW ensures reliable and permanent sealing of horizontal and vertical concrete construction joints against pressurised and non-pressurised water.

General Building Supervisory Test Certificate (AbP) MFPA Leipzig

Pressure water-tightness: Up to max. 2 bar (20 m water column)

DATA SHEET

MASTERTUBE injection Hose | YELLOW

Technical details

outside diameter:	approx. 12 mm
inside diameter:	approx. 6 mm
outlet openings:	slotted with valve function
application temperature:	depending on injection agent, approx. + 6°C to +40°C
test certificate / approvals:	General Building Supervisory Test Certificate (AbP) MFPA Leipzig No.: P-SAC 02 / 5.1 / 119-337
pressure water-tightness:	up to max. 2 bar (20 m water column)
suitable for zones with frequently varying water levels:	yes
corresponds to:	Utility class A for load classes 1 and 2 in accordance with the WU (water impermeability)guideline
Substances according to the SVHC list contained or proportional weight ≥0.1%::	no
conform to REACH Guideline:	yes
packaging:	1 roll of 100 m
material:	PVC hose
Resistance:	On request
colour:	yellow

General information

Article number:	030400
article group:	300 - Injektionsschlauch

GTIN:	4251689514227
customs tariff number:	39172190
packing unit:	Roll
sales quantity unit:	100 m
SVHC:	Nein
REACH konform:	Ja
storage:	Store in undamaged and unopened original packaging in a dry place out of direct sunlight.
disposal:	Can be disposed of at municipal waste landfill sites, taking into account the local waste disposal regulations.

ACCESSORIES

Fastening Packer

for fixing the injection hose to the formwork Colour: grey packer plus 10 red plugs and 10 white plugs for resin injection bag contents 20 pieces

sku 030060

Plastic Fastening Clip | Type A

Clip to fasten the injection hose for pressing into the fresh concrete, fastened at 15 cm intervals 100 pcs./bag

sku 030075

MC-Injekt 2300 flow | 1 litre

ductile-elastic, permanently sealing, moisture-reactive injection resin for hose and crack injection CE marking Suitable for use in drinking water systems in accordance with the KTW assessment

sku 040015

Basis

All dimensions and information in this data sheet reflect the results of the laboratory tests that have been carried out. Deviations from the values determined by us under laboratory conditions are possible due to environmental and operating conditions beyond our control. The data in this data sheet only applies for the product delivered by us. The product data corresponds only to the specifications in Germany. Possible country-specific deviations are not taken into account here.

Lifetime

The useful life of buildings is designed for 50 years, and so are the products that are installed. However, this can be shortened by external influences. The expected lifetime of our products depends to a large extent on the installation location (e.g. buried installation, damp environment, offshore, etc.). In addition, there are external influences such as exposure to chemical influences (e.g. acids, aggressive media, aqueous solutions, industrial waste water, oils, etc.) and ambient temperatures / operating temperatures. Ultimately, no generally valid statement can be made about the guaranteed service life of our MASTERTEC products, as this depends on many parameters (use, environmental influences, installation requirements, safety regulations, etc.). To ensure safe operation, we recommend continuous testing of the product, as part of an operating and maintenance manual to be prepared by the customer in accordance with the safety requirements.

Indication of law

The technical information reflects our current knowledge of the product described. It is intended only as information for users. As we do not know the envisaged applications and processing conditions, it is the responsibility of the user to carefully check that the product is suitable for the intended purposes. Due to the different components at the installation site and the working conditions in place there, MASTERTEC cannot provide any guarantee whatsoever for the result of the work. Claims arising from any legal relationship can only be recognised in the event of wilful intent or gross negligence, irrespective of the statements made here or advice provided verbally. In this case the user must prove that he has provided MASTERTEC in writing with all the information required to correctly assess the installation situation in good time. Subject to necessary product specifications or further developments. By providing this information MASTERTEC does not intend to infringe third party rights. The latest data sheet in each case applies. Our corresponding terms and conditions of sale and delivery apply.
